During the scholastic year, from october to may, every wednesday evening, seminars will be given involving topics related to the different health care areas covered by physiotherapists' professional performance:

## **25628 - Practicum**

- Physiotherapy in primary health care.
- Physiotherapy in specialized health care (hospitals).
- Physiotherapy in accident insurance companies.
- Physiotherapy in the education system.
- Physiotherapy in children's cerebral palsy.
- Physiotherapy in geriatric centres.
- Physiotherapy in social services.
- Physiotherapy in sport.
- Physiotherapy in intensive care units.
- Ergonomics applied to physiotherapists' work.
- Workshops for patients' caregivers.

In the second term, students are expected to present clinical sessions, either in the classroom or in the centers where they are taking their practical lessons. The topics are chosen by each student, as long as it is related to any of the health care areas.

### **5.4.Course planning and calendar**

### **5.5.Bibliography and recommended resources**
