

27023 - Undergraduate Dissertation

Información del Plan Docente

Academic Year	2017/18
Faculty / School	
Degree	
ECTS	10.0
Year	---
Semester	Second semester
Subject Type	
Module	---

1.General information

1.1.Introduction

1.2.Recommendations to take this course

1.3.Context and importance of this course in the degree

1.4.Activities and key dates

2.Learning goals

2.1.Learning goals

2.2.Importance of learning goals

3.Aims of the course and competences

3.1.Aims of the course

3.2.Competences

4.Assessment (1st and 2nd call)

4.1.Assessment tasks (description of tasks, marking system and assessment criteria)

5.Methodology, learning tasks, syllabus and resources

5.1.Methodological overview

From mid-June until the first week of September, those Departments related to the Maths Degree will present proposals for the Undergraduate Dissertations. Those proposals have to be approved by the CGC (Quality Assessment Committee) and

around mid-September, the approved proposals will announced. The CGC will guarantee that the number of proposals and

27023 - Undergraduate Dissertation

the variety of subjects are suitable.

An assignment process will follow. At the end each student must have signed a commitment with a teacher who will assist the student to understand the proposal, find the relevant bibliography and get the necessary skills to perform the task. The student will be supervised by that teacher during the whole process.

Detailed policies for Undergraduate Dissertations in Mathematics can be found at the Facultad de Ciencias webpage.

5.2.Learning tasks

The Undergraduate Dissertation in Mathematics must be written using LaTeX. To help the students to achieve the necessary skills, an introductory course to LaTeX will be offered.

5.3.Syllabus

5.4.Course planning and calendar

Scheduling for the Dissertations Defense.

Will be announced in the Facultad de Ciencias webpage.

5.5.Bibliography and recommended resources
