Degree	429 - Degree in Public Management and Administration
ECTS	12.0
Year	3
Semester	Annual
Subject Type	Compulsory
Module	---

1.General information

1.1.Introduction

1.2.Recommendations to take this course

1.3.Context and importance of this course in the degree

1.4.Activities and key dates

2.Learning goals

2.1.Learning goals

2.2.Importance of learning goals

3.Aims of the course and competences

3.1.Aims of the course

3.2.Competences

4.Assessment (1st and 2nd call)

4.1.Assessment tasks (description of tasks, marking system and assessment criteria)

5.Methodology, learning tasks, syllabus and resources

5.1.Methodological overview

The learning process of this subject is based on...

The subject Special Administrative Law includes theoretical classes, case studies, work with electronic resources, reading of judgments and papers and autonomous work of the student.

29012 - Local, Urban and Environmental Law

The method adopts the following strategies:

1. To do that the student is a copartner of the learning process that demonstrate that participants are able to continue learning on their own after the class has ended.
2. To train in social and ethical values.
3. To train in quality, to promote education based on active and participative methods.

5.2.Learning tasks

The student will be helped to achieve these aims by the following activities....

The teachers used the technique of the master class to introduce students to the fundamental principles of the subject matter and in others, activities based on the student's personal work consisting of reading and preparation of texts, in implementing theoretical knowledge to practical cases, etc. Also possible that teachers indicate to students the materials to be read and work previously, to carry out a theoretical class or practice of dialogue and interactive way, which can be formulated by the students themselves questions, issues and problems arising.
