Academic Year	2017/18
Faculty / School	
Degree	
ECTS	12.0
Year	---
Semester	Second semester
Subject Type	
Module	---

1.General information**1.1.Introduction****1.2.Recommendations to take this course****1.3.Context and importance of this course in the degree****1.4.Activities and key dates****2.Learning goals****2.1.Learning goals****2.2.Importance of learning goals****3.Aims of the course and competences****3.1.Aims of the course****3.2.Competences****4.Assessment (1st and 2nd call)****4.1.Assessment tasks (description of tasks, marking system and assessment criteria)****5.Methodology, learning tasks, syllabus and resources****5.1.Methodological overview**

The learning process of this matter is based on the following:

The student will agree with his/her Supervisor about the formative activities to carry out. These will depend on the proposed topic and its scope. In general, the TFG will be devoted to a subject related to Chemical Engineering, complex and demanding enough as to reach a total dedication of about 12 ECTS (i.e. 300 individual working hours from the student).

5.2.Learning tasks

The learning activities will be the fruit of a Supervisor-student agreement.

5.3.Syllabus

There is not an established general working program. The student is encouraged to consult the TGA offers in the EINA web:

(<http://eina.unizar.es/intraneteina/index.php?r=ofertasPfc/indexTFG>).

5.4.Course planning and calendar

The schedule of activities will be agreed between the Supervisor and the student. Regarding EINA, the student has to take into account the internal rules for TFG (see below). In brief, the student must register in the established period and elaborate a TFG proposal to be presented at the Academic Commission of the Degree (i.e. at the Secretary of EINA) at any time. Upon the conclusion of TFG, the supervisor will fill a confidential inform to authorize the administrative presentation and subsequent defense of the TFG. At least two months have to be elapsed between the proposal and the administrative presentation.

5.5.Bibliography and recommended resources
