SPECIALIZATION IN DEFENCE
The end-of-grade dissertation is developed within a unit, centre or institution of the Army or the Ministry of Defence (hereafter, UCO), during the same period when the student also develops the course 'external practices'. The objective is to integrate 18 ECTS of both courses (End-of-degree dissertation and external practices) in a coherent formative activity that combines the academic standards with an optimal performance of the future officers learning. One of the aims is to develop an applied, professionally focused activity. As far as possible it should also correspond with his/her fundamental speciality.

5.2. Learning tasks

SPECIALIZATION IN BUSINESS

The program that the student is offered to help him achieve the expected goals includes the following activities...

1: It involves the active participation of students, so that for achieving learning outcomes, the following activities, no redundancy intended with the above mentioned, will be developed,

2: Supervised autonomous activities: These activities will be led by the Director of the Final Year Project and the writing of it will be under the supervision of such Director.

3: Individual tutorials: They can be face-to-face or virtual with each of the teachers of the different subjects.

SPECIALIZATION IN DEFENCE

The on-site part two courses 'external practices' and 'end-of-degree Dissertation' take place during eight weeks. Each student will spend seven weeks in a UCO and a final week in the Academia General Militar in order to finish his/her Dissertation. During the first seven weeks in the UCO he/she must accomplish both the external practices requirements and most of the Dissertation work, leaving only the end of the dissertation and the oral presentation. In order to obtain the best performance and to guarantee the success of the dissertation, the following global time distribution between both courses is recommended: two and a half weeks for external practices and four and a half weeks for dissertation.

Each student will have a supervisor in the UCO acting both as the military tutor of the practices and military supervisor of the Dissertation.

Each student will have a supervisor (teacher) from CUD acting both as the academic tutor of the practices and academic supervisor of the Dissertation.
