

25621 - Medical-surgical conditions I

Información del Plan Docente

Academic Year	2018/19
Subject	25621 - Medical-surgical conditions I
Faculty / School	127 - Facultad de Ciencias de la Salud
Degree	275 - Degree in Physiotherapy
ECTS	6.0
Year	3
Semester	First Four-month period
Subject Type	Compulsory
Module	---

1.General information

1.1.Aims of the course

1.2.Context and importance of this course in the degree

1.3.Recommendations to take this course

2.Learning goals

2.1.Competences

2.2.Learning goals

2.3.Importance of learning goals

3.Assessment (1st and 2nd call)

3.1.Assessment tasks (description of tasks, marking system and assessment criteria)

4.Methodology, learning tasks, syllabus and resources

4.1.Methodological overview

The learning process that has been designed for this subject is based on the following:

The combination of theoretical classes in a large group, seminars in a smaller group (half students), small group work (two to four students) and special importance of personal study.

4.2.Learning tasks

The program offered to the student to help achieve the expected results includes the following activities:

25621 - Medical-surgical conditions I

1- Theory sessions in large group (46 hours). Explanation and orientation for the personal study of the different contents of the subject, aiming towards the acquisition of competences and learning outcomes. All the resources of the directivity and of the interaction, and the diverse multimedia support will be used.

2 - Problems and cases: Seminars in two groups (7 hours / group).

3- Group work: Will be done in small groups (2 to 4 students). It aims to stimulate initiative and personal creativity, teamwork, the management of documentary sources, the structuring of a logical discourse and the search and achievement of the conclusive synthesis. All of this is a prerequisite for research. It will focus on a suggested topic subject in relation to the contents of the subject. The extension will be of 10-12 folios, indicating the source of information according to the norms of Vancouver, writing with technical terminology and clear and personal style.

4- Individual Tutorials

5- Personal study (3,5 ECTS): The student should be responsible in the creation of structured schemes and work programs and in the context of the time spent for other subjects. It must represent the step of motivation, fostered with the learning activities described above, to the autonomous exercise of the will.

4.3.Syllabus

Module I: Basic concepts / General principles

Topic 1- Introduction to Surgery

Topic 2- Complications and general care in surgical patients.

Topic 3- Infections: Wound and general infections. Nosocomial infections.

Topic 4- Tegument trauma: Wounds. Contusion. Cicatrization. Pressure ulcers. Skin grafts.

Module II Thoracic disorders and respiratory diseases

Topic 5- Chest wall deformities and thoracic trauma.

Topic 6- Thoracic surgery. Acute respiratory failure.

Topic 7- Respiratory diseases. Respiratory infections. Lung cancer.

Topic 8- Breast surgery. Thoracic pain syndromes.

Module III Musculoskeletal disorders: Traumatology and orthopaedics

Topic 9- Bone trauma. Repair process.

25621 - Medical-surgical conditions I

Topic 10- Soft tissues and joint injuries (ligaments, muscles and tendons).

Topic 11- Upper extremity trauma.

Topic 12- Orthopedic pathology of the upper extremities.

Topic 13- Lower extremity trauma

Topic 14- Orthopedic pathology of the lower extremities. Osteochondral dystrophies

Topic 15- Spinal contusion without spinal cord injury

Topic 16- Spine curvature disorders.

Module IV Rheumatic disorders and pain syndromes of musculoskeletal system

Topic 17- Rheumatoid arthritis. Rheumatic hand. Rheumatic feet.

Topic 18- Spondyloarthropathies.

Topic 19- Spinal pain.

Topic 20- Regional musculoskeletal pain syndromes.

4.4.Course planning and calendar

Calendar of face-to-face sessions and presentation of works

- Theoretical classes in a large group: 4h / week in the first semester
- Seminars in two groups: 7h / semester distributed in 3 seminars (for each group)
- Individual work delivery: last school day of January
- Voluntary theory examination: (eliminates subject matter) half-term
- Final official examination of theory of the whole subject at the end of the first semester (date approved by the center)

25621 - Medical-surgical conditions I

- Test of final control of seminars at the end of the first semester

4.5. Bibliography and recommended resources
