

# 26013 - Surgical medical conditions I

## Syllabus Information

**Academic Year:** 2018/19

**Subject:** 26013 - Surgical medical conditions I

**Faculty / School:** 127 - Facultad de Ciencias de la Salud

**Degree:** 276 - Degree in Occupational Therapy

**ECTS:** 10.0

**Year:** 2

**Semester:** Annual

**Subject Type:** Compulsory

**Module:** ---

## 1.General information

### 1.1.Aims of the course

### 1.2.Context and importance of this course in the degree

### 1.3.Recommendations to take this course

## 2.Learning goals

### 2.1.Competences

### 2.2.Learning goals

### 2.3.Importance of learning goals

## 3.Assessment (1st and 2nd call)

### 3.1.Assessment tasks (description of tasks, marking system and assessment criteria)

## 4.Methodology, learning tasks, syllabus and resources

### 4.1.Methodological overview

The learning process that has been designed for this subject is based on the following:

The combination of theory sessions in large group, practice sessions in small groups, an individual or group project and special attention will be paid to autonomous study.

### 4.2.Learning tasks

The course includes the following learning tasks:

- Lectures: large group (5 ECTS: 50 hours). Explanation and orientation for the personal study of the different contents of the subject, aiming at the acquisition of competences and learning results.
- Practice session: in small groups (3,7 ECTS: 37.5 hours). Training on hypothetical scenario and resolution of problems both individually and in teams, using the theoretical bases of the subject and the communicative exercise.
- Group work: (1,2 ETCS : 12, 5 hours). It is aimed at the stimulation for the initiative and personal creativity, the use of bibliographical documental sources, the organization of a logical discourse and the searching and achievement of the concluding thesis.
- Autonomous work and study: (15 ETCS: 150 hours). From the activities indicated, the student must be responsible for the creation of schemes and work programs.

### 4.3.Syllabus

The course will address the following topics:

## MEDICO-CHIRURGICAL AFFECTIONS I

### General Part

- Topic 1. Semiological evaluation of patient. Clinical record General characteristics
- Topic 2. Oncology . General principles. Cancer prevention and treatment
- Topic 3. Immunology. Autoimmunity.
- Topic 4. Molecular genetic and Human pathology. Genetic disorder.

### II. Medical-Surgical Nervous System Disorders

- Topic 5. Semiology. Exploration and diagnostic methods in Neurology.
- Topic 6. Congenital craniocerebral abnormalities .
- Topic 7. Hydrocephalus. Intracranial Hypertension syndrome
- Topic 8. Intracranial tumours. Topographic Syndromes.
- Topic 9. Craniocerebral infectious processes. Meningitis. Encephalitis. Poliomyelitis.
- Topic 10. Intellectual disability syndrome. Cerebral palsy. Down Syndrome.
- Topic 11. Pyramidal tract pathology. Hemiplegia.
- Topic 12. Extrapyramidal tract pathology. Chorea. Athetosis. Parkinson's Disease.
- Topic 13. Ataxias.
- Topic 14. Cranial nerves pathology.
- Topic 15. Spinal cord pathology. Syringomyelia.
- Topic 16. Spinal muscular atrophy and dystrophy.
- Topic 17. Demyelinating diseases. Multiple sclerosis.
- Topic 18. Neuromuscular junction disease . Myasthenia gravis
- Topic 19. Peripheral neuropathy. Guillain Barre syndrome.
- Topic 20. Upper limb nerve injuries.
- Topic 21. Lower limb nerve injuries.

### III. Medical-Surgical locomotor apparatus Disorders ( Traumatology and Rheumatology included )

- Topic 22. Semiology. Exploration and diagnostic methods in locomotor apparatus.
- Topic 23. Congenital upper and lower limb abnormalities
- Topic 24. Congenital spine abnormalities.
- Topic 25. Infectious pathology. Acute and chronic osteomyelitis. Septic arthritis.
- Topic 26. Osteoarticular tuberculosis. Pott's disease.
- Topic 27. Endocrine metabolic osteopathy. Rickets. Osteomalacia.
- Topic 28. Osteoporosis.
- Topic 29. Paget disease.
- Topic 30. Degenerative osteoarticular pathology. Arthrosis.
- Topic 31. Ankylosing spondylitis.
- Topic 32. Musculoskeletal tumours.
- Topic 33. Deformities of the spinal column. Kyphosis. Lordosis. Scoliosis.

### Traumatology

- Topic 34. Fracture Generalities.
- Topic 35. Fractures: complications and treatment .
- Topic 36. Sprains. Dislocations. Joint traumatism.
- Topic 37. Multiple trauma. Shock. Fat and gas embolism.
- Topic 38. Craniocerebral trauma.
- Topic 39. Amputees.
- Topic 40. Spinal column traumas . Vertebral fractures and dislocation
- Topic 41. Spinal injuries.

### Rheumatology

- Topic 42. Rheumatoid arthritis. Rheumatic fever
- Topic 43. Gout and gouty arthritis.
- Topic 44. Connective tissue disease. Connective disorders.

## SEMINARS PROGRAM MEDICO-CHIRURGICAL AFFECTIONS I

- a) SEMINAR OF RESEARCH METHODOLOGY AND BIBLIOGRAPHIC DATABASES. DESIGN AND EXHIBITION OF WORKS
- b) SEMINARS IN NERVOUS SYSTEM
  - 1. CEREBRAL PALSY
  - 2. CLINICAL CASES (1)
  - 3. CLINICAL CASES (2)
  - 4. INSTRUMENTS FOR THE EVALUATION OF THE QUALITY OF LIFE IN PATIENTS WITH NEUROLOGICAL PATHOLOGY
- c) SEMINARS IN LOCOMOTOR APPARATUS
  - 1. QUALITY OF LIFE IN PATIENTS WITH locomotor apparatus PATHOLOGY
  - 2. FIBROMYALGIA
  - 3. FIRST AID FOR MULTIPLE TRAUMA (LABORATORY PRACTICE)
  - 4. FRACTURE TREATMENT

#### **4.4.Course planning and calendar**

Schedule of on-site sessions and project presentation

- Lecture: in large group 3h/week along 30 school weeks.

- Practice sessions: in small group organized by the Centre: 2h / week /group (4 groups all the year)

Compulsory attendance in to 85% of them.

Handing over of the individual work: February-May, when the contents of every part are finished. It will be established the days of the presentation and reading at the beginning of the academic year.

Two exams: that eliminate material when February (part I) and May (part II) are finished.

Final exam of the whole subject (official call placed by the school): June -September, for those students who have not eliminated the contents corresponding to the voluntary mid-term exams or have not taken them. NO MID TERM MARKS EXAMS ARE KEPT FOR FOLLOWING CALLS (the project mark is maintained during the academic year)
