Faculty / School: 127 - Facultad de Ciencias de la Salud

Degree: 276 - Degree in Occupational Therapy

ECTS: 6.0

Year: 4

Semester: Annual

Subject Type: Compulsory

Module: ---

1.General information

1.1.Aims of the course

1.2.Context and importance of this course in the degree

1.3.Recommendations to take this course

2.Learning goals

2.1.Competences

2.2.Learning goals

2.3.Importance of learning goals

3.Assessment (1st and 2nd call)

3.1.Assessment tasks (description of tasks, marking system and assessment criteria)

4.Methodology, learning tasks, syllabus and resources

4.1.Methodological overview

The course is developed within the context of the study of human activity, deepening the effect of those activities in the independent operation and health of the people.

The course will lead the student towards the knowledge and the application of tools, techniques and professional skills of intervention and evaluation, which are used in the process of occupational therapy, in the area of occupational performance of work.

The learning process that has been designed for this subject is based on the following:

- A mixed orientation, both theoretical and applied, so that the activities are planned thinking about the acquisition of knowledge and skills that the student needs in order to develop the process of occupational therapy in the area of work.
- The materials of the course will be presented through the Digital Teaching Platform.

4.2.Learning tasks

The course includes the following learning tasks:

- **1. Lectures in a large group (50 hours).** Explanation of the different contents of the subject, directing the group towards the acquisition of competences and learning results.

- **2. Workshops / practical seminars in reduced groups (12.5 hours).** Analysis and solution of different practical assumptions, putting into practice the theoretical basis of the course.
- **3. Autonomous work (12.5 hours).** Individual work unites a personal study of the subject, analysis and study of the materials presented in the Digital Teaching Platform and the work in groups.
