

26682 - Treatment of Language Disorders and Hearing

Información del Plan Docente

Academic Year	2018/19
Subject	26682 - Treatment of Language Disorders and Hearing
Faculty / School	107 - Facultad de Educación 202 - Facultad de Ciencias Humanas y de la Educación 301 - Facultad de Ciencias Sociales y Humanas
Degree	300 - Degree in Primary School Education 298 - Degree in Primary School Education 299 - Degree in Primary School Education
ECTS	6.0
Year	4
Semester	Half-yearly
Subject Type	Optional
Module	---

1.General information

1.1.Aims of the course

1.2.Context and importance of this course in the degree

1.3.Recommendations to take this course

2.Learning goals

2.1.Competences

2.2.Learning goals

1 Know the role played by a primary school teacher in the field of language disorders

2 Know the general aspects of learning and hearing disorders

3 Know and evaluate in order to implement the required intervention programmes

4 Be able to guide teachers in preparing and using resources, activities and strategies that enable treatments with these disorders

5 Be able to guide parents and legal guardians to be able to develop communication skills with children with such difficulties

2.3.Importance of learning goals

26682 - Treatment of Language Disorders and Hearing

The subject Treating Language and Hearing Disorders introduces students to learn the relevant contents on linguistic content in general, and to evaluating and intervening in the most frequent disorders noted in schoolchildren. This subject contributes to a profile that complements their basic training in language and hearing disorders, and also to special education needs, and provides fundamental knowledge in the intervention area where the future primary school teacher may work professionally.

3. Assessment (1st and 2nd call)

3.1. Assessment tasks (description of tasks, marking system and assessment criteria)

4. Methodology, learning tasks, syllabus and resources

4.1. Methodological overview

The methodology followed in this course is oriented towards achievement of the learning objectives. It is based on active participation, case studies, teamwork etc. that favors the development of communicative skills and critical thinking. A wide range of teaching and learning tasks are implemented, such as lectures, practical activities, practice sessions, autonomous work, tutorials, and academic guidance.

Further information regarding the course will be provided on the first day of class.

4.2. Learning tasks

The course includes 6 ECTS organized according to:

- Lectures (3 ECTS): 30 hours.
- Practice sessions (2 ECTS): 20 hours.
- Autonomous work (ECTS): 87 hours.
- Tutorials (1 ECTS): 10 hours.
- Assessment (0,3 ECTS): 3 hours.

Lectures: the professor presents theoretical contents.

Practice sessions: they can involve discussion and presentation of case studies, practical work outside the classroom (field work or visits), and seminars.

Autonomous work: students do tasks such as autonomous study, reading of the course book, preparation of practice sessions and seminars, and summative assignments.

Tutorials: professors' office hours can be used to solved doubts and to follow-up students' work.

Assessment: final examination

4.3. Syllabus

Theme 1: Introduction: Conceptual delimitation. Definition. Classification. Acquisition and development of normal and pathological language

Theme 2: Evaluating language disorders

Theme 3: Treating language disorders

Theme 4: Studying hearing disorders. General classification. Diagnosis evaluation of deafness. Hearing disorders. Identifying hearing loss. Introducing audiometry. Developing language and communication. Perceiving and producing speech in people with hearing impairments

26682 - Treatment of Language Disorders and Hearing

Theme 5: Methodological approaches in treating and educating children with hearing impairments

Theme 6: School and learning with children who have hearing impairments

4.4.Course planning and calendar
