

28435 - Ecology and the Environment

Información del Plan Docente

Academic Year	2018/19
Subject	28435 - Ecology and the Environment
Faculty / School	105 - Facultad de Veterinaria
Degree	451 - Degree in Veterinary Science
ECTS	3.0
Year	
Semester	First semester
Subject Type	Optional
Module	---

1.General information

1.1.Aims of the course

1.2.Context and importance of this course in the degree

1.3.Recommendations to take this course

2.Learning goals

2.1.Competences

2.2.Learning goals

2.3.Importance of learning goals

3.Assessment (1st and 2nd call)

3.1.Assessment tasks (description of tasks, marking system and assessment criteria)

4.Methodology, learning tasks, syllabus and resources

4.1.Methodological overview

Participative master lectures. Practical lectures will be devoted to the recognition of theoretical aspects in the field and in the classroom.

4.2.Learning tasks

The program offered to the students to help them achieve the expected results, comprise the following activities:

4.3.Syllabus

28435 - Ecology and the Environment

Theory program

Participative theory lectures in which students pose doubts regarding the information they have received previously by the teacher. This information is available on Moodle platform since the beginning of the term.

Week 1. Ecology 1. Introduction.

Week 2. Ecology 2. Populations.

Week 3. Eco 3. Communities.

Week 4. Eco 4. Ecosystems.

Week 5. Eco 5. Conservation Biology.

Week 6. MA 1. Abiotic Environmental Impact.

Week 7. MA 2. Biotic Environmental Impact and Environmental Education.

Week 8. MA 3. Environmental Microbiology.

Week 9. Global assessment.

Practices program

28435 - Ecology and the Environment

Week 3. Demography.

Week 5. Practice in the field 1. Natural Environments

Week 6. Environmental Education.

Week 7. Practice in the field. Extensive farming and Natural Environments.

4.4.Course planning and calendar

Calendar, timetable, tutorials and exams will be adjusted to the general academic calendar of Saragossa University and its Faculty of Veterinary.

The information on the subject will be available on Moodle platform from the beginning of the term.

Presential sesión calender

This subject implies an average dedication of 75 hours by the student:

Master lectures	15
Classroom practices	4
Fieldwork	11
Study and autonomous work	40
Evaluation	2

28435 - Ecology and the Environment

Total	75
