

Year : 2018/19

## **28963 - Undergraduate Dissertation**

### **Syllabus Information**

<b>Academic Year:</b>	2018/19
<b>Subject:</b>	28963 - Undergraduate Dissertation
<b>Faculty / School:</b>	201 -
<b>Degree:</b>	437 - Degree in Rural and Agri-Food Engineering
<b>ECTS:</b>	12.0
<b>Year:</b>	4
<b>Semester:</b>	Indeterminate
<b>Subject Type:</b>	End of Grade Dissertation
<b>Module:</b>	---

### **General information**

#### **Aims of the course**

#### **Context and importance of this course in the degree**

#### **Recommendations to take this course**

#### **Learning goals**

#### **Competences**

#### **Learning goals**

#### **Importance of learning goals**

#### **Assessment (1st and 2nd call)**

#### **Assessment tasks (description of tasks, marking system and assessment criteria)**

#### **Methodology, learning tasks, syllabus and resources**

#### **Methodological overview**

The learning process designed for this course is an active method based on the independent learning of the student. The main characteristics are as follow:

- Motivation for learning.
- Learning step by step, with increasing difficulty.

- Practical application of the theoretical concepts.
- Encouragement of independent learning of the student.
- Development of skills in: searching of information, research, data analysis, ...

## Learning tasks

The learning activities are based on the independent learning of the student under the supervision of an academic tutor. In this sense, the student will receive frequent tutoring from his academic tutor.

As a previous step the student will complete an initial proposal detailing the contents of the undergraduate dissertation. From this proposal, the final document will be elaborated and deposited in electronic format and on paper. Finally, the student will present his work, by an oral presentation, before an academic tribunal.

It is suggested that the students consult the next resource: Guía de Herramientas y pautas para un buen TFG: "Learning Tools and Guidelines Guide for a successful End-of-Degree Project". It is an online course -across the slant of the Virtual Campus of the UZ - that tries to be a guide that provides information and advice about the features and the development of the End-of-Degree Project to the students of the University of Saragossa. The ultimate aim is to make the students reflect about the End-of-Degree Project in such a way that it helps them to plan and develop his TFG with minimum quality standards. It remains open all the academic year long, having the support of a permanent advisory service attended by librarians of the University of Saragossa.

\*How to register in the course:

1. If you are registered in the End-of-Degree Project subject, the registration is automatic.

2. If you are not registered in the End-of-Degree Project Subject, contact with your Library School Center:
