1.3.Recommendations to take this course

2.Learning goals

2.1.Competences

2.2.Learning goals

2.3.Importance of learning goals

3.Assessment (1st and 2nd call)

3.1.Assessment tasks (description of tasks, marking system and assessment criteria)

4.Methodology, learning tasks, syllabus and resources

4.1.Methodological overview

Course methodology

The learning process that has been designed for this course is based on the following activities:

Although part of any class session is likely to involve direct teaching, the emphasis is on student participation in English and the students will be expected to take part actively in discussion and in tasks such as small group and pair work, role play and oral presentations. These activities will include:

29025 - Foreign Language (English)

- . Oral and written communication tasks.
- . Analysis and production of written texts relating to business topics as well as copies of the most common documents and correspondence to be encountered in the business professional practice.
- . Representation and description of trends and statistic data.
- . Oral presentation of a business project or new ideas.
- . Simulation of real business situations

The student will also be expected to spend time studying outside the class using extra facilities and materials to help them develop their expertise as an independent language learners.

4.2.Learning tasks

The programme offered to students to help them achieve the learning outcomes includes the following activities:

- 1: Lectures: with the main objective of conveying the fundamental concepts of the module, so that goals set by the teacher are achieved. The lecture is expected to be participatory and to encourage debate and clarify issues and questions based on the learning materials.
- 2: Practice sessions: individual and group tasks on business related discussions, team work and group interaction, preparation and presentation of companies, projects or ideas, simulation of business situations.
- 3: Tutorials and evaluation that allow a more direct and personal support to students in order to monitor tasks, answer questions and guide them in their academic work. These tutorials may be individual or in a group.
