Methodology, learning tasks, syllabus and resources

Methodological overview

The learning process that is designed for this subject is based on the following:

The student must follow the Director or Project Managers training activities, depending on the proposed theme and scope of the project.

The final project will consist of a work with sufficient elements of personal creation, which reveal the knowledge, skills, aptitudes and attitudes acquired by the student throughout the degree. The complexity and the level of requirements established in its development will involve an estimated total workload of 12 ECTS credits.

Learning tasks

They must be agreed in each case with the / the director or directors of Final Project

Syllabus

Course planning and calendar

The calendar of academic activities must be agreed in each case with the / the director or directors TFG.
