<b>Semester</b>	First semester
<b>Subject Type</b>	Basic Education
<b>Module</b>	

**1.General information****1.1.Aims of the course****1.2.Context and importance of this course in the degree****1.3.Recommendations to take this course****2.Learning goals****2.1.Competences****2.2.Learning goals****2.3.Importance of learning goals****3.Assessment (1st and 2nd call)****3.1.Assessment tasks (description of tasks, marking system and assessment criteria)**

Global evaluation: Final exam (75%) and in-class performance/participation (25%).

**In-class performance/participation**

You are expected to read and prepare the readings and homework assignments specified on the reading list, and to participate in the class discussions. To participate actively, you will need to come to class well prepared in terms of ideas. In other words, your instructor expects you to speak in class. In addition to your oral participation, your in-class performance also includes the degree to which you have prepared the assignments.

**Final exam**

The final exam is cumulative; that is to say that it consists of all the materials studied up to the end (including lectures and

practical classes). The exam will likely contain all of the following parts: a) A multiple-choice test (ten short questions) (25% of the grade), b) Two short essays (50% of the grade).

## **4.Methodology, learning tasks, syllabus and resources**

### **4.1.Methodological overview**

This course is designed to help students to understand present day main economic problems. The main objective of most of this course is to give students a historical perspective about them. Causes and characteristics of economic growth, spatial and personal income disparities, the nature and causes of economic crisis and the building of a global economy are the main issues to be discussed throughout the course.

### **4.2.Learning tasks**
