<b>Degree</b>	526 - Master's in Accounting and Finance
<b>ECTS</b>	6.0
<b>Year</b>	1
<b>Semester</b>	First semester
<b>Subject Type</b>	Compulsory
<b>Module</b>	---

### **1.General information**

#### **1.1.Aims of the course**

#### **1.2.Context and importance of this course in the degree**

#### **1.3.Recommendations to take this course**

### **2.Learning goals**

#### **2.1.Competences**

#### **2.2.Learning goals**

#### **2.3.Importance of learning goals**

### **3.Assessment (1st and 2nd call)**

#### **3.1.Assessment tasks (description of tasks, marking system and assessment criteria)**

### **4.Methodology, learning tasks, syllabus and resources**

#### **4.1.Methodological overview**

The methodology followed in this course is oriented towards achievement of the learning objectives. A wide range of teaching and learning tasks are implemented, such as:

- Lectures, where the most important concepts are explained. Student participation will be required through different activities to achieve greater theoretical understanding and professional application.
- Practice sessions, where the lecturers will guide the students during the empirical application of the previously presented theoretical contents.

## **61424 - Financial Economics: Classical Approaches and New Trends**

### **4.2.Learning tasks**
