4.3.Syllabus

In the general framework of Corporate Social Responsibility (CSR) business information systems are explained, as well as their practical application in companies. The main objective of this subject is to develop competences of students in order to apply social and environmental approaches of CSR as future managers in different organizations or institutions.

The subject is structured in three sections:

- The 1st section offers a theoretical approach to CSR and its principles.
- The 2nd section addresses the transparency of CSR, the study of different methodologies and the development of social and environmental information for financial and non-financial reporting activity.
- The 3rd section is focused on the interrelation of CSR with the management accounting and control in the framework of the circular economy

4.4.Course planning and calendar

The calendar of classes will be published in the web site of the Faculty (econz.unizar.es) and/or in the Online Teaching Platform (ADD) and the presentation of works and other activities will be announced by the lecturer and through the appropriate channels.

4.5.Bibliography and recommended resources
