Academic Year: 2020/21

Subject: 25628 - Practicum

Faculty / School: 127 - Facultad de Ciencias de la Salud

Degree: 275 - Degree in Physiotherapy

ECTS: 42.0

Year: 4

Semester: Annual

Subject Type: External Placements

Module: ---

1.General information

1.1.Aims of the course

1.2.Context and importance of this course in the degree

1.3.Recommendations to take this course

2.Learning goals

2.1.Competences

2.2.Learning goals

2.3.Importance of learning goals

3.Assessment (1st and 2nd call)

3.1.Assessment tasks (description of tasks, marking system and assessment criteria)

4.Methodology, learning tasks, syllabus and resources

4.1.Methodological overview

4.2.Learning tasks

4.3.Syllabus

The course will address the following topics:

During the scholastic year, from october to may, every wednesday evening, seminars will be given involving topics related to the different health care areas covered by physiotherapists' professional performance:

- Physiotherapy in primary health care.
- Physiotherapy in specialized health care (hospitals).
- Physiotherapy in accident insurance companies.
- Physiotherapy in the education system.
- Physiotherapy in children's cerebral palsy.
- Physiotherapy in geriatric centres.
- Physiotherapy in social services.
- Physiotherapy in sport.
- Physiotherapy in intensive care units.
- Ergonomics applied to physiotherapists' work.
- Workshops for patients' caregivers.

In the second term, students are expected to present clinical sessions, either in the classroom or in the centers where they are taking their practical lessons. The topics are chosen by each student, as long as it is related to any of the health care areas.

4.4.Course planning and calendar

4.5.Bibliography and recommended resources
