4.Methodology, learning tasks, syllabus and resources

4.1.Methodological overview

The methodology followed in this subject is oriented towards the achievement of the learning objectives. The student will have to agree with the Director/s of the TFG the formative activities, depending on the proposed subject and modality chosen.

It will be the student himself who must look for the bibliography, oriented by its Director/s and according to the type and theme of the Work chosen.

4.2.Learning tasks

The subject has been assigned in the curriculum with 6 ECTS (150 hours), invested in:

- Meetings of students with the coordinator of the subject
- Tutorial sessions with the director
- Personal work of the student
- Presentation and oral defense

Tender lines will be published at the beginning of the academic year. Previous agreements between the student and the director are highly appreciated. The coordinator of the subject and the CGC will ensure that each student has a director before the limit of submission of the proposal.

4.3.Syllabus

TFG modalities are as follows:

- Research (Among those offered by the Departments) .
- Review and bibliographical research.
- Analysis of a complex clinical case.
- Presentation of a student publication in an indexed scientific journal.
- Presentation of student communications in a scientific conference/congress : An international communication and one national or three national communications.
