**Module:** ---

### 1.General information

#### 1.1.Aims of the course

#### 1.2.Context and importance of this course in the degree

#### 1.3.Recommendations to take this course

### 2.Learning goals

#### 2.1.Competences

#### 2.2.Learning goals

#### 2.3.Importance of learning goals

### 3.Assessment (1st and 2nd call)

#### 3.1.Assessment tasks (description of tasks, marking system and assessment criteria)

### 4.Methodology, learning tasks, syllabus and resources

#### 4.1.Methodological overview

The methodology followed in this course is oriented towards the achievement of the learning objectives. A wide range of teaching and learning tasks are implemented, such as theory sessions, practice sessions and tutorials.

#### 4.2.Learning tasks

This course is organized as follows:

- **Theory sessions** (25 hours). The lessons will be used to present the theoretical contents.
- **Practice sessions** (25 hours). They allow putting into practice the knowledge acquired in the theory sessions and demonstrate the ability to work in groups and the skills of searching for information and interpersonal communication. The development of practice sessions will be based both on the use of the method of the case as in the resolution of case studies. However, other forms may also be used as the search for information for further analysis and the discussion of lectures in class. For the development of these sessions, the computer classroom may be used, which facilitates the availability of the appropriate means for the search and treatment of information in class.
- **Autonomous work and study** (75 hours). It consist on problem-based learning / Laboratory (tool ICT) / Seminars /

Tutorials / Student's autonomous work. Individual or small group tutorials in the teacher's office seek to offer more personalized support to the students for the resolution of doubts about the theory or practice of the course, or to guide them in the study.

The teaching delivery methodology is expected to pivot around face-to-face classes. However, if necessary for health reasons, face-to-face classes may be taught semi-face-to-face or online.
