

27619 - Macroeconomics II

Syllabus Information

Academic Year: 2020/21

Subject: 27619 - Macroeconomics II

Faculty / School: 109 - Facultad de Economía y Empresa

Degree: 450 - Degree in Marketing and Market Research

ECTS: 6.0

Year: 2

Semester: Second semester

Subject Type: Compulsory

Module: ---

1.General information

1.1.Aims of the course

1.2.Context and importance of this course in the degree

1.3.Recommendations to take this course

2.Learning goals

2.1.Competences

2.2.Learning goals

2.3.Importance of learning goals

3.Assessment (1st and 2nd call)

3.1.Assessment tasks (description of tasks, marking system and assessment criteria)

4.Methodology, learning tasks, syllabus and resources

4.1.Methodological overview

The learning process that has been designed for this subject is based on the following:

1.-Participatory master classes: In these classes, the teacher will explain the fundamental contents of the subject. The student must complement the explanations with the recommended bibliography.

2.-Practical classes. In them, the students will solve practical exercises, always under the supervision of the teacher. For its development, the group will be divided, which facilitates the participation of the student. The methodology followed in this course is oriented towards the achievement of the learning objectives. A wide range of teaching and learning tasks are implemented, such as lectures, practice sessions, tutorials, autonomous work, study and assessment tasks.

Students are expected to participate actively in class throughout the semester.

Further information regarding the course will be provided on the first day of class

The teaching methodology is planned for face-to-face classes. However, if necessary for health reasons, teaching could be delivered on line

4.2.Learning tasks

The course includes the following learning tasks:

- Lectures: Credits: 1,2. Methodology: The professor will explain the basic contents of the subject proposing questions to help the students assimilate the contents correctly. Students should complement these explanations with the recommended bibliography. Class attendance and participative solving of problems.
- Practice lessons: Credits: 1,2, Methodology: Students will solve practical exercises under the supervision of the professor. The groups will be split for these classes so as to facilitate the students' participation and a more personalized attention from the professor. Class attendance, problem solving and case studies applying specific technical tools.
- Tutorials and seminars: Credits: 0,6. Methodology: Tutorial and complementary activities.
- Autonomous Work: Credits: 3. Methodology: Exercise solving. Using ICT. Preparing work projects and exams.

The assessment will be prepared to be carried out as face-to-face examination, but if health circumstances do not allow it, they will be carried out by doing it entirely online or in a blended way. In the case of online exams, it is important to highlight that, the student may be recorded, and he or she can exercise his or her rights by the procedure indicated in.
