1.3.Recommendations to take this course

2.Learning goals

2.1.Competences

2.2.Learning goals

2.3.Importance of learning goals

3.Assessment (1st and 2nd call)

3.1.Assessment tasks (description of tasks, marking system and assessment criteria)

4.Methodology, learning tasks, syllabus and resources

4.1.Methodological overview

The learning process that has been designed for this subject is based on the following:

The subject is designed to develop the proposed program through the presentation of content by the teacher and, mainly, through the active participation of the students.

Given that the teaching methodology is based on the resolution of cases and practical cases , the content will be presented in each exercise and its subsequent resolution and discussion, in such a way as to reveal its understanding and the capacity to search accounting information and systematize it.

4.2.Learning tasks

The program offered to the students to help him achieve the expected results includes the following activities:

1. Theoretical classes. 30 hours in which the theoretical concepts and methodological contents related to accounting theory are exposed.
2. Práctical clases. 30 hours in which the methodology is applied in the theoretical classes, directed by the teacher and with active student participation.
3. Student work: includes reading textbooks, reference books, resolving exercises, exams, etc.

4.4.Course planning and calendar

Schedule sessions of face to face sessions

:

Each face to face session, both theoretical and practical, lasts 2 hours. The theoretical classes that develop the twelve subjects will be taught during the semester so that in each week of the same one will study a subject of the subject. The practical classes will be taught once the corresponding theoretical concepts have been studied.

Presentation of works

Each of the two works that the students have to do, will present them in writing, on the dates that will be set at the beginning of the course.

4.5.Bibliography and recommended resources
