4.1.Methodological overview

The methodology followed in this course is oriented towards the achievement of the learning objectives. A wide range of teaching and learning tasks are implemented, such as clinical practice sessions, practical assignments, and tutorials.

4.2.Learning tasks

This course is organized as follows:

- **Clinical Practice:** will be held in the University Dental Clinic. All the activities will be done individually or in pairs/groups.
- **Practical homework:** A Portfolio must be presented by the student with all the clinical procedures that will be done during the course. The portfolio must include a bibliographic review that sustains all the clinical procedures. This review will be exposed by the students and will be discussed by the alumni and the professors.
- **Professor tutorials:** the main objective of the tutorials is to solve doubts and promote evidence-based learning.

4.3.Syllabus

This course doesn't have its own theoretical contents. The goal is to provide a clinical experience of all the theoretical concepts learned during module IV.
