

30360 - Information Systems

Syllabus Information

Academic Year: 2020/21

Subject: 30360 - Information Systems

Faculty / School: 110 - Escuela de Ingeniería y Arquitectura

Degree: 438 - Bachelor's Degree in Telecommunications Technology and Services Engineering

ECTS: 6.0

Year: 4

Semester: First semester

Subject Type: Optional

Module: ---

1.General information

1.1.Aims of the course

For more information, please see course 30224 (Information Systems)

1.2.Context and importance of this course in the degree

For more information, please see course 30224 (Information Systems)

1.3.Recommendations to take this course

For more information, please see course 30224 (Information Systems)

2.Learning goals

2.1.Competences

For more information, please see course 30224 (Information Systems)

2.2.Learning goals

For more information, please see course 30224 (Information Systems)

2.3.Importance of learning goals

For more information, please see course 30224 (Information Systems).

3.Assessment (1st and 2nd call)

3.1.Assessment tasks (description of tasks, marking system and assessment criteria)

For more information, please see course 30224 (Information Systems).

4.Methodology, learning tasks, syllabus and resources

4.1.Methodological overview

For more information, please see course 30224 (Information Systems).

4.2.Learning tasks

For more information, please see course 30224 (Information Systems).

4.3.Syllabus

For more information, please see course 30224 (Information Systems).

4.4.Course planning and calendar

For more information, please see course 30224 (Information Systems).

4.5.Bibliography and recommended resources
