1. General information

2. Learning goals

3. Assessment (1st and 2nd call)

3.1. Assessment tasks (description of tasks, marking system and assessment criteria)

Continuous evaluation system ...

The evaluation of this subject follows a continuous evaluation procedure. Students must demonstrate that they have achieved the intended learning outcomes through the following training activities evaluation.

For their evaluation:

1. A delivery schedule will be established throughout the course as a continuous evaluation system.
2. With the grade obtained by this process, the student will have the possibility of passing the course with the highest rating.
3. The continuous evaluation will be carried out on individualized monitoring of the student's work, so it is the main attendance. To qualify for continuous assessment, students must cover 80% of assistance.
4. Passing the subject in this modality of continuous assessment exempts the student from the conducting the global test.

4. Methodology, learning tasks, syllabus and resources

4.1. Methodological overview
