ECTS: 16.0

Year: 3

Semester: First semester

Subject Type: External Placements

Module:

1. General information

2. Learning goals

3. Assessment (1st and 2nd call)

4. Methodology, learning tasks, syllabus and resources

4.1. Methodological overview

The learning process that has been designed for this subject is based on the following:

The presence of the student in the school with the aim of observing, acting and reflecting on what is observed with the help of the teacher of the subject and the teacher tutor, establishing a link between the theory studied in the subjects of the first three years and the professional practice. As a consequence, it is expected that the student acquires competences that allow him/her to better integrate the theoretical knowledge taught in the degree and, on the other hand, an experimental knowledge of great utility for his later incorporation into the teaching profession.

4.2. Learning tasks

The program offered to the student to help him achieve the expected results comprises the following activities ...

- Presence of the student in a school for 150 hours, which is equivalent to 25 school days, at the rate of 6 hours a day of presence at the center.
- Seminars in which the professor of the subject summons his/her students of practices.
- Individual work session in which the teacher receives each of his students in order to assess the practice report.
- Autonomous work of the student who completes the 250 hours of dedication to the subject.

4.4. Course planning and calendar

The calendar of presence of the students in the school center and in the faculty will be established and published by the Faculty before the beginning of the school internship.
