

Academic Year/course: 2021/22

## 27015 - Numerical Analysis II

### Syllabus Information

**Academic Year:** 2021/22

**Subject:** 27015 - Análisis numérico II

**Faculty / School:** 100 - Facultad de Ciencias

**Degree:** 453 - Degree in Mathematics

**ECTS:** 9.0

**Year:** 3

**Semester:** Annual

**Subject Type:** Compulsory

**Module:**

### 1. General information

### 2. Learning goals

### 3. Assessment (1st and 2nd call)

### 4. Methodology, learning tasks, syllabus and resources

#### 4.1. Methodological overview

The methodology followed in this course is oriented towards the achievement of the learning objectives. A wide range of teaching and learning tasks are implemented, such as lectures, problem-solving sessions, tutorials and autonomous work and study.

#### 4.2. Learning tasks

This course is organized as follows:

- **Lectures.**
- **Problem-solving sessions.** These sessions will be held in small groups. Acquired concepts are trained with here. The different computational methods and algorithms are performed in a scientific programming language, checking the different algorithms and methods with test problems.
- **Computer lab sessions** in small groups
- **Tutorials.**
- **Autonomous work and study.** Autonomous study, complemented with tutorials are fundamental in the learning process.

Teaching and assessment activities will be on-site. However, if the sanitary measures or the regulations by competent authorities and by the Universidad de Zaragoza require it, these activities will be to a greater or lesser extent on-line.

#### 4.3. Syllabus

This course will address the following topics:

- **Topic 1.** Polynomial interpolation.
- **Topic 2.** Spline interpolation.

- **Topic 3.** Numerical differentiation.
- **Topic 4.** Numerical quadrature.

#### 4.4. Course planning and calendar

Further information concerning the timetable, classroom, office hours, assessment dates and other details regarding this course will be provided on the first day of class or please refer to the Faculty of Sciences website and Moodle.

#### 4.5. Bibliography and recommended resources

- Gasca, Mariano. Cálculo numérico : unidad didáctica 1 / preparada por Mariano Gasca González. - [6a. ed.] Madrid : Universidad Nacional de Educación a Distancia, 1991
- Burden, Richard L.. Análisis numérico / Richard L. Burden, J. Douglas Faires . - 6a ed., rev. México [etc.] : International Thomson, cop. 1998
