4. Methodology, learning tasks, syllabus and resources

4.1. Methodological overview

The learning process designed for this subject is based on the following:

For proper integration of theoretical and practical content of the subject, as well as high student involvement in the learning process, a combination of strategies and teaching methods will be used: the theoretical and practical classes; reading, study and discussion by students of the recommended materials; conducting exercises and homework to present and discuss in class or delivery and subsequent evaluation by the teacher; the use of specific simulators for solving tax planning problems; and customized individual or group tutorials.

4.2. Learning tasks

The program that the student is offered to help you achieve the expected results includes the following activities
...

1. Presentation of topics, bibliographical orientation and and resolution of issues and problems raised by the teacher.
2. Personal work by the students, individually and in groups, for resolution of issues and problems and exam preparation .
3. Resolution and presentation / class discussion of issues and problems previously proposed by the teacher, and participation in seminars .
4. Tutorials Individual and group Tutorials.
5. Examinations .

In principle, the teaching delivery methodology is planned to pivot around face-to-face classes. However, if necessary for health reasons, face-to-face classes may be taught semi-face-to-face or online.
