

Academic Year/course: 2021/22

28959 - Integrated production and agroecology

Syllabus Information

Academic Year: 2021/22

Subject: 28959 - Producción integrada y agroecología

Faculty / School: 201 - Escuela Politécnica Superior

Degree: 583 - Degree in Rural and Agri-Food Engineering

ECTS: 5.0

Year: 4

Semester: Second semester

Subject Type: Optional

Module:

1. General information

2. Learning goals

3. Assessment (1st and 2nd call)

4. Methodology, learning tasks, syllabus and resources

4.1. Methodological overview

The course will address the following topics:

- Lectures in the classroom.
- Practical sessions in lab.
- Tutorial sessions.
- Field visits.

4.2. Learning tasks

The course includes the following learning tasks:

- I. Crop ecology. Theoretical and practical lessons
- II. Legislation and standards for integrated production and agroecology Theoretical and practical lessons
- III. Resource management Theoretical and practical lessons. Field visit

4.3. Syllabus

The course will address the following topics:

Theory Programme

- I. Crop ecology
 - a. Introduction: Sustainability of agricultural systems
 - b. Community concepts
- II. Legislation and standards for integrated production and agroecology
 - a. Integrated production
 - b. Ecological agriculture
- III. Resource management

- a. Soil management
- b. Water management
- c. Vegetation cover management
- d. Integrated crop protection

Practical programme

- I. Characterisation of the initial situation: Surveys
 - II. Detecting problematic situations
 - III. Handling alternatives
- Field visit

4.4. Course planning and calendar

Week	1	2	3	4	5	6	7	SS	8	9	10	11	12	13	14	15
