4. Methodology, learning tasks, syllabus and resources

4.1. Methodological overview

The course "cash management" is a 6ECTS course of 150 hours of workload divided in 60 teaching hours and 90 hours of autonomous work. The course includes lectures, seminars and practical sessions. All class sessions will be based in a participative model. Due to the dynamism of the course, pieces of news related to the topic and debates will take place in the classes.

Practical classes will consist of solving real cases that will be prepared by the students or the teacher. Active participation is essential so it is important to prepare the cases previously in order to solve exercises in class.

Seminars have the aim of putting in common the work done by different student groups, letting the rest of the students to share and to give their point of view of the topic related to the course.

In principle, the teaching delivery methodology is planned to pivot around face-to-face classes. However, if necessary for health reasons, face-to-face classes may be taught semi-face-to-face or online.

4.2. Learning tasks
