

Academic Year/course: 2022/23

27407 - Introduction to finance

Syllabus Information

Academic Year: 2022/23

Subject: 27407 - Introduction to finance

Faculty / School: 109 - Facultad de Economía y Empresa

Degree: 417 - Degree in Economics

ECTS: 6.0

Year: 1

Semester: Second semester

Subject Type: Basic Education

Module:

1. General information

2. Learning goals

3. Assessment (1st and 2nd call)

4. Methodology, learning tasks, syllabus and resources

4.1. Methodological overview

The learning process designed for this subject is based on the following:

The coexistence of lectures with active participation from students with practical sessions taught in a computer room, comprising problems that will be solved by the students themselves with the teacher's help.

4.2. Learning tasks

The teaching methodology is expected to be classroom-based. However, if necessary for health reasons, the classes can be given online, as all the teaching material is available, including videos with the recorded classes. The program offered to help the student to achieve the expected results includes the following activities:

1 Lectures. They consist of lectures given by the teacher, whose main objective is to transmit the notions of the subject in a clear, concise and pleasant way. Audiovisual materials will be used, as well as Internet resources.

2 Practical sessions and case studies in the computer room. By using the spreadsheet and other software used in businesses and organizations.

3 Autonomous student work. It includes the study of theoretical and practical contents, by means of individual study, research and information analysis, among other activities.

4 Evaluation activities, needed to assess student's performance.

4.3. Syllabus

PART 1. Operations assessment.

Lesson 1. Introductory concepts on Finance. Financial valuation, interest rates, capitalization and discount.
