### 4. Methodology, learning tasks, syllabus and resources

#### 4.1. Methodological overview

The learning process designed for this course is based on an active method, given that the student is integrated in a private or public organization to take an apprenticeship in it. The student becomes the agent of his/her own education through personal research, direct contact with reality and the experience with the work group where he belongs. This method is based on:

- A strong motivation in the learning process
- A growing difficulty
- The establishment of a bridge between academic theoretical abstraction and practical reality.
- The detection of errors
- The students autonomy
- The acquisition of skills in the search for information.

#### 4.2. Learning tasks

A range of activities will be offered to the student to help him/her achieve the expected goals:

1. Tutorials and presentation of the work placement report.
2. Working hours adapted to the needs of the partner company and of the student.
3. Individual work: The student will write a preliminary work placement report, an academic report and will present the academic report.

#### 4.4. Course planning and calendar

This subject is worth 6 ECTS credits, which amounts to 150 hours for the student. The distribution of the schedule will be the following:

Activity: Work in the firm where the apprenticeship is done: 120 hours

Activity: Meetings with the academic tutor: 6 hours

Activity: Writing of the preliminary work placement report, of the academic report and its presentation: 24 hours

TOTAL: 150 hours.
