Universidad Zaragoza

Academic Year/course: 2022/23

29339 - Paediatric Odontology II

Syllabus Information

Academic Year: 2022/23
Subject: 29339 - Paediatric Odontology II
Faculty / School: 229 - Facultad de Ciencias de la Salud y del Deporte
Degree: 442 - Degree in Odontology
ECTS: 6.0
Year: 5
Semester: First semester
Subject Type: Compulsory
Module:

1. General information

2. Learning goals

3. Assessment (1st and 2nd call)

4. Methodology, learning tasks, syllabus and resources

4.1. Methodological overview

The methodology followed in this course is oriented towards the achievement of the learning objectives.

The methodology of teaching-learning in this course is fundamentally based on theoretical and practical activities. Part of the contents are introduced by means of a theory session, which intends to provide the student with the essential and most relevant topics of the course. During the exhibition the dialogue will be impugned through questioning, problem-based learning, solving doubts, etc.

Seminars and case studies and analysis of clinical assumptions will enable the student to become familiar with critical analysis of information and reasoned decision making, based on the information acquired.

Students will carry out clinical practice sessions to acquire the competences foreseen in children's patients. The practice sessions aim to provide the student with minimum skills and abilities to access clinical practices with patients and then recognize the peculiar characteristics of oral treatment in the patient Infant and learn the basic aspects of the child's management in the dental consultation, creating an affective communication with the patient and his parents or guardians that allows him to advise the care and follow-up necessary to promote the oral health of the child patient.

Group or individual work, to reinforce autonomous learning, and tutorial dedicated to solving doubts and providing a bibliography, as well as keeping track of group and individual assignments.

4.2. Learning tasks

This course is organized as follows:

Theory sessions and clinical seminars and workshops (given the exceptional situation of this academic year 2020/21, if it is not possible to perform these activities in the classroom, they will be carried out with teachers and students synchronously connected through technologies facilitated by the University of Zaragoza.

Tutorials

Seminars and workshops.

Clinical practice sessions. Students will carry out clinical practices with children's patients in the Dental Practice Service of the University of Zaragoza and will deliver a notebook where the practices carried out will be developed
