

Academic Year/course: 2022/23

## 61456 - Taxation and Labour Law

### Syllabus Information

**Academic Year:** 2022/23

**Subject:** 61456 - Taxation and Labour Law

**Faculty / School:** 109 - Facultad de Economía y Empresa

**Degree:** 545 - Master's in Auditing

**ECTS:** 4.0

**Year:** 1

**Semester:** First semester

**Subject Type:** Compulsory

**Module:**

### 1. General information

### 2. Learning goals

### 3. Assessment (1st and 2nd call)

### 4. Methodology, learning tasks, syllabus and resources

#### 4.1. Methodological overview

The course is based on lectures and practice sessions. Given the operational nature of the course, the lectures include examples related to close-to-reality situations.

The methodology followed in this course is oriented towards the achievement of the learning objectives. It is based on active participation, case studies, teamwork, and so on, that favor the development of communicative skills and critical thinking. A wide range of teaching and learning tasks are implemented, such as lectures, practice sessions, autonomous work, tutorials and assessment tasks.

Students are expected to participate actively in the class throughout the semester.

Classroom materials will be available via Moodle. These materials include a repository of the lecture notes used in class during the course, the course syllabus, as well as other course-specific learning materials, including a discussion forum.

Further information regarding the course will be provided on the first day of class.

In case not all the lessons would be possible to be offered at a room at the Faculty, or not all the students could receive them at the Faculty, an online system would be provided. If online examination systems would be necessary due to sanitary reasons, the students could be recorded at any time (for more information visit

#### 4.2. Learning tasks

The course includes the following learning tasks:

- Lectures

- Case solving activities
- Autonomous work (study, tutorials, writing papers and assessment activities)

The professor will have a office hours during which, and by appointment, the students will meet with the teacher to resolve any problems that arise during the course.

This is a 4 ECTS course organized as follows:

- **Lectures.** The teacher presents theoretical contents illustrated with relevant examples.
- **Practice sessions.** They can include discussion and presentation of case studies, practical work inside the classroom and seminars, that every one of the Professors will suggest to the students. These learning exercises will be valued with a 55% of the final mark, taking into account right and concrete answers as well as the knowledge of the subject. Special attention should be given to learning exercises to be completed individually and only in case the Professor gives express permission they could be done in group work.

Active participation in theoretical and practical lessons is required. Attendance and completion of class work will be valued with a 45% of the final mark, to be added to the mark obtained at the learning exercises.

- **Autonomous work.** Students do tasks such as study, readings, preparation of practice sessions and seminars, and summative assignments.
- **Tutorials.** Office hours can be used to solve doubts and for follow-up of students' learning progress.
- **Assessment tasks.** A final written examination is open to those students that haven't done or haven't passed the continuous evaluation or to those students that want to improve the mark obtained on the continuous evaluation. The valid mark will be the best mark obtained of the two obtained (continuous evaluation and final examination). The date of the final examination will fixed according to the official planning of the Master. To pass this final examination the student will have to obtain at least 5 points from a máximum of 10 points.
