Module:

1. General information

The DFP becomes a central piece in the learning process followed by the student throughout his years of university academic training, since it directly relates research, intervention and innovation activities.

It plays an important role in the evaluation of your grade.

Its main goal is to allow the student to show in an integrated way the formative contents received and the competences and skills acquired in relation to the context in which they have to be applied.

These approaches and goals are aligned with the following SDGs of the United Nations 2030 Agenda, so that the acquisition of the learning results of the subject provides training and competence to contribute to some extent to their achievement: Goals 4, 5, 10, 12, 17.

2. Learning results

- Adequately describes and understands the goal and the processes of design, implementation and evaluation of projects related to information units and content management, as well as the planning mechanisms of the actions necessary for their development.
- Lists and explains the ways of systematization and exposition of research in social sciences applied to the area of Information and Documentation and to academic and professional works.
- Defines, lists and understands the ways of systematization and exposition of the practice of the professional activity related to Information and Documentation.
- Exposes in a clear, structured and understandable way the written report and correctly defends his/her work in front of an audience.

3. Syllabus

Due to the peculiarities of the subject it does not have a developed program.

4. Academic activities

- Development of a personal project on a topic of your choice related to your studies.
- Personal study of the theoretical and practical contents.
- Bibliographic study and analysis through the selection, reading, analysis and evaluation of the selected bibliography - Exposition of the work.

5. Assessment system

FIRST CALL

Overall assessment system

It will follow the evaluation rubric (*global evaluation report*) presented in moodle. *Criteria:* Adequacy of content; approach and information on resources; analysis of objectives and initial planning; correct use of specific terminology and appropriate presentation.

Individual interview on the development of the subject and oral presentation of the project.

The student may present a maximum of two times in the same academic year to defend his/her DFP.

The rules that regulate the presentation of the DFP, the dates of defense and the mechanisms of evaluation and grading are the following those regulated by the regulations of the University and the Faculty of Philosophy and Letters.

SECOND CALL

Overall evaluation system identical to that established in the first call.
