1. General information

The External Academic Internships are a training activity included in the curriculum of the degree within the elective module.

The goals to be achieved are:

- To contribute to the integral training of students by complementing their theoretical and practical learning.
- To facilitate the knowledge of the work methodology adequate to the professional reality in which the students will have to operate, contrasting and applying the acquired knowledge.
- To encourage the development of technical, methodological, personal and participatory skills.
- To obtain practical experience that facilitates insertion into the labour market and improves the student's future employability.
- To encourage the values of innovation, creativity and entrepreneurship.

These goals are aligned with the Sustainable Development Goals (SDGs) of the United Nations 2030 Agenda.

It is recommended to consult the EINA website: <https://eina.unizar.es/info-profesion>

2. Learning results

The student, in order to pass this subject, must demonstrate the following results:

- To be able to apply the theoretical knowledge acquired, putting it into practice in the development of a work outside the educational field, supervised, directed and (public or private).
- Be able to fulfill the commitments acquired with the collaborating entity and with the University in relation to the external practices.
- To be able to write, in an adequate and systematic way, a report of activities (final report of the practices) in which he the proposed and achieved objectives are stated, as well as a detailed description of the activities carried out.
- Be able to present the final report of the internship to the academic tutor and to hold, if necessary, a debate in which, among other issues, contents, methodology and clarity are addressed.
- To be able to establish the relationship between the contents of the degree and the work performed, taking into account both the general and specific competences and the skills and attitudes developed.
- To be able to make a reasoned evaluation of the activities and processes linked to them and to formulate proposals for improvement.

3. Syllabus

The practice program will be established by agreement with the collaborating entity and the academic tutor, and will be included in the Training Project. This project must be evaluated and approved by the Academic Committee of the degree.

In application of the current regulations, the internship will be worth 25 hours per credit.

In accordance with the provisions of the verification report of the Degree in Architectural Studies, and in accordance with its duration, the external academic internship subjects offered for enrollment and evaluation in this degree program are as follows:
