5. Assessment system

I. MIXED SYSTEM

It consists of the following assessment activities:

a) Evaluation of activities carried out during the term

During the four-month period, students must actively participate in classes and pass three successive exercises in response to short questions, multiple-choice quizzes or other written comprehension exercises on short texts, respectively.

b) Final written test

The final written test constitutes 50% of the final grade. It consists of a single test consisting of any of the following three options:

a. direct translation (English-Spanish) of a 150-word text;

b. the completion of a reading comprehension exercise of a legal text (see a);

II. SIMPLE SYSTEM BASED EXCLUSIVELY ON A FINAL GLOBAL TEST

The final global test will cover all the contents of the syllabus and will be developed in two parts:

1. A direct translation (English-Spanish) of a 150-word text. For the evaluation of the translation, the lexical, grammatical, punctuation and syntactic coincidence between the original and translated texts will be taken into account,

2. A 15-question multiple-choice *test* with no penalty for errors, consisting of the identification of specialized legal terms.

For the theoretical test the student will not be allowed to handle any auxiliary material. Its duration will not exceed 45 minutes.

The overall grade of the subject will be given by the average of the grades of both tests, being the value of both of them 50%. The weighted average will not be calculated if a student does not show up and/or does not pass the two tests that make up the global test.
