1. General information

- To introduce the student to the environment of the tourism company, entity, organization or institution. The teaching methodology will always be active and participatory, being complemented, if necessary, by specific theoretical and practical training provided by the University, the company and/or the host institution.

- To know the professional practice with the objective of contrasting in the company, organization or institution the theoretical and practical knowledge acquired during the degree.

The realization of external internships is a first approach of the student to the working world, where he/she will be able to contribute to these institutions the skills and competences acquired during the years of study.

2. Learning results

The realization of external internships is a first approach of the student to the working world, where he/she will be able to contribute to these institutions the skills and competences acquired during the years of study.

The internship is a double way of training for the student and a contribution of the student to the training in terms of improvement and learning. Understand the functioning of the company or institution where he/she works in order to be able to contribute the knowledge and experience acquired from his/her studies applied to the professional reality at in his/her immediate professional future.

The specific training activities to be developed in the internship will depend in each case on the profile of the position to which the student joins (hotel management, travel agencies, tourist information, public or private tourist organization or institution). In this sense, the attainment of competencies of this training will also be related to this profile.
