Assessment test (3 hours) [5 hours for students who opt for global assessment]

5. Assessment system

GLOBAL ASSESSMENT

In this modality, students will take a single test at the end of the term for 100% of the grade of the subject . This test may include questions from the entire syllabus.

ALTERNATIVE EVALUATION

In this modality, students will be evaluated through three types of activities:

1. **-Elaboration and subsequent presentation of a tutored group work** related to entrepreneurial activity and the creation of a company (20% of the grade)
2. **-Performance of six computer practices**, where the students will apply the knowledge acquired in the theory classes to solve a series of problems (5% of the grade)
3. **-Reduced final test** in which topics 2 and 4 are excluded (75% of the grade)

To access the alternative assessment it will be essential to have completed the work and at least 5 of the 6 practices. If only 5 practices are completed, an alternative assessment can be used, but losing 5% of the grade corresponding to the practices. To pass, the student must obtain at least a 3.25 out of 7.5 points on the reduced final test.

Qualification bonus [optional]

For the completion of an *online* course in information competences given by the Library of the centre (additional 5%).

6. Sustainable Development Goals

8 - Decent Work and Economic Growth
