4. Bankruptcy solutions: composition and liquidation
5. The qualification of the bankruptcy liability

### 4. Academic activities

The training activities of the subject will consist of the resolution of practical cases proposed in class. This includes the preparation and resolution of the cases, their presentation in class, analysis and defence of the proposed solutions and participation in the debates among the different possible solutions that the students who support them will have to argue.

### 5. Assessment system

In the first call, this subject is evaluated only by the continuous evaluation system. In order to pass students must attend at least 80% of the sessions. The final grade for the subject will be based on the evaluation of five activities carried out throughout the term. The schedule for the implementation of the evaluable activities and their specific content will be specified in the chronogram that will be given to the students at the beginning of the term. In order to pass the subject, students must complete all the activities and pass a minimum grade that will be specified in the evaluation criteria that will be given to the students at the beginning of the term together with the schedule.

Students who have not passed the subject in the first call may take a global test in the second call. This test will consist of a questionnaire of thirty short questions (multiple choice - with only one correct answer - or questions with limited space) on the contents of the subject and the completion of a practical case. The theoretical test will represent 50% of the final exam and the practical case will represent 50%. It will be necessary to pass both parts.

## 6. Sustainable Development Goals

- 8 - Decent Work and Economic Growth
- 9 - Industry, Innovation and Infrastructure
