Practical classes: 60 hours. Analysis of cases related to the content of the program and resolution of practical cases The learning process that has been designed for this subject is based on the following:

1. The instructional didactic model with presentation of concepts and theoretical knowledge and the use of bibliography on the programmed contents

2. The use of the case method in practical activities focused on student activity and participation

5. Assessment system

SUMMATIVE AND GLOBAL ASSESSMENT

Since this is an annual subject, a written test is given at the end of each semester. Therefore, there are 2 written tests (at the end of the first semester and at the end of the second semester)

Each of the tests will be evaluated out of 10 points and the proportion and structure will be as follows:

Each test will consist of a written test of 20 questions that will respond to the structure of the subject 40% on theoretical issues

(8 items) and 60% on practical contents (12 items).

Only legislative texts will be available in both parts.

Each written test taken at the end of each semester will represent 50% of the final grade for the subject.

It is necessary to pass each of the tests taken at the end of each semester individually. Only in the case of having a part with a minimum grade of 4 and the other part passed with a 6, the compensation will be made. In case of passing one of the two tests, only the pending one can be examined **during the academic year**. The grade of each one of them, if passed, will be kept until the second exam, **but never from one academic year to another**.

5.1. Academic fraud prevention

The use of unauthorised electronic materials or devices during the assessment may result in immediate exclusion from the examination and a fail mark (a numerical mark of '0' for the assessment).

Furthermore, the lecturer in charge may complete the grade report and submit it to the General Inspectorate of Services, so that it may, where appropriate, consider initiating disciplinary proceedings against the student for academic fraud.

In the case of a continuous assessment exam [continuous assessment cannot continue, unless otherwise specified in the academic guide.]

In the case of a regular or extraordinary exam session, the initiation of disciplinary proceedings will result in the grade 'pending resolution' until the proceedings are concluded.
